

## CHAPTER V

### CONCLUSION AND SUGGESTIONS

#### A. Conclusion

Based on the discussions that have been conducted by researcher in the previous chapters, the researcher conclude that the difficulties that teachers face in giving an assessment of the attitudes of students in the process of learning English based on the 2013 curriculum in SMPN 1 Poso Kota Utara, namely

That difficulties in giving an assessment of the honesty attitude of students and discipline attitudes difficulties in filling out aspects of attitude assessment based on the 2013 curriculum because they are considered too many aspects to be assessed so that teachers need additional time to fill every aspect of the attitude assessment. Another difficulties that teachers face is the limited time that is considered lacking to assess student attitudes during the learning process.

## B. Suggestion

The suggestions that are expected from the results of this study include:

1. It is expected as reference material by the teacher and to find out the difficulties of the teacher in giving an assessment of student attitudes based on the 2013 curriculum.
2. For the next researcher, it is expected that it can be used as a source of data in further research on the analysis of teacher difficulties in providing an assessment of student attitudes in the process of learning English based on the 2013 curriculum.
