

BAB V

CONCLUSION AND SUGGESTIONS

A. CONCLUSION

The ability of students in writing descriptive text is poor (the score 51-60). It can be seen from the result of students' writing on descriptive text, the total average score is 55,04. Therefore, it can be concluded that the eight grade students' ability at Mts Pondok Pesantren Islam Amanah Putri in writing descriptive text in English is poor.

B. SUGGESTIONS

Based on the findings of this research, the researcher puts some suggestions as follow :

1. For English teacher, it was suggested that English teachers give students more opportunities to practice writing skills based on generic structures, as well as more instruction on how to employ content, organization, and mechanics in composing descriptive text.
2. For students, the students should pay attention to the teachers explanation, if it is not understood, please ask question so that they are not mistaken when doing assignments and not to repeat the same mistake.
3. For the next researcher, it is proposed that the findings of this study be used as addictional references for future research.
