

## CHAPTER V

### CONCLUSIONS AND SUGGESTIONS

#### A. Conclusions

Based on the research has been conducted it can be concluded that these three majors have positive perception about the use of *Self-Recording Video* in English Class.

#### B. Suggestions

The suggestions are:

1. For educators (lecturers or teachers), it is expected to be as creative as possible to built new strategies as creative as possible by using this *Self-Recording Video* method so the students particularly be able to express their creative ideas more so as to create content or new innovations in terms of learning English.
2. For other researcher, the researcher also expected that this research can be a refeence for further that provides a useful resources for futher researcers to conducted a study about the students perception on the use of *Self-Recording Video*.
