

CHAPTER V

CONCLUSION AND SUGGESTION

A. CONCLUSION

Based on the results and discussion of the research, it can be concluded that most of the 1st year at SMA N 2 Poso have positive perception towards English learning process rather than a negative perception.

B. SUGGESTIONS

1. For Teacher; first, the teacher should provide students with comfort in learning by paying attention to the conditions of the room occupied during learning. Second, the teacher needs to be highly motivated to learn. The last, the teacher should be comfortable using the language.
2. For Student; the first, the student should have a strong motivation to learn. Second students should increase their confidence in speaking English when interacting with teachers or other people. Third, students should do homework in groups so that it feels lighter and can be collected on time. Finally, students should be more confident in doing the assignments given by the teacher.

3. For future researcher; who want to do similar research, as well as, they can use this research as a reference for their research, can also developing various related topics student perception towards learning English.
