

CHAPTER V

CONCLUSION AND SUGGESTION

A. CONCLUSION

Based on the results of this research, teachers used direct instruction, indirect instruction, individual study, and collaborative. In teaching English at SMAN 1 Soyo Jaya, North Morowali Regency. During pandemic time, the teachers used this learning strategy due to a time limitation, only 10 to 15 minutes in each meeting to the conditions of the pandemic (covid-19), the teachers could only assign students to study ingroups at home and only gave daily assignments to be dicussed together on the next meeting.

B. SUGGESTIONS

Based on the research results found by researcher, the researcher provides the following suggestion.

1. For English teachers

Teachers must be able to use good and coreect learning strategies, teachers are also required to be able to apply materials that make it easier for students to observe each material provide, so that the process of teaching and learning activities goes weel.

2. For researcher

For further researcher who will conduct research on the strategies used by teachers in learning English, it is hoped that they can conduct further research by observing the learning process or the effectiveness of students learning.
