

CHAPTER V

CONCLUSION AND SUGGESTIONS

A. Conclusion

Based on the results that have been found by researcher, there are two kinds of teaching strategies commonly employed by English teacher at MTs. Alkhairaat Poso, they are mastery learning teaching strategy and direct teaching strategy.

Based on the results of the research, it can be concluded that in learning English at MTs. Alkhairaat Poso, the teacher used mastery learning teaching strategy and direct teaching strategy. In the implementation of each strategy there were method used by the teacher. In mastery learning teaching strategy the teacher used inquiry method, small group work method, and peer instruction method. Meanwhile, in implementation direct teaching strategy, the teacher used feedback and correctives method, and structuring and presentation method.

B. Suggestions

Based on the research results found by researcher, the researcher provides the following suggestion.

1. For English teacher

Teacher must choose appropriate and interesting strategies based on the needs of students in class, so that students can understand learning well and so that students can achieve learning goals on that day.

2. For Students

Students must be enthusiastic about following English lessons in class according to the strategies used by teacher, because the learning process will run well if students and teacher work well with each other.

3. For researcher

For further researcher who will conduct research on the strategies used by teacher in learning English, it is hoped that they can conduct further research by observing the learning process or the effectiveness of students learning.
